

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

## PART I

# REPORT.

---

OFFICE OF THE STATE BOARD OF ASSESSORS,

TRENTON, N. J., October 31, 1904.

*To the Legislature of New Jersey:*

The act of the Legislature entitled "An act to revise and amend an act for the taxation of railroad and canal property, approved April tenth, one thousand eight hundred and eighty-four" (which revision was approved March 27, 1888), provides that it shall be the duty of the State Board of Assessors to annually report to the Legislature. In compliance with this statutory provision, the said Board herewith presents its twenty-first annual report, which report (as in 1903, and for the same reasons) is divided into two parts, Part I covering the valuation and assessment of railroad and canal property, with the statistical tables and other information relating thereto, and Part II showing the assessments levied against miscellaneous corporations organized under the laws of the State of New Jersey; the assessment and apportionment of franchise tax levied upon corporations using or occupying the public streets or highways, under provisions of Chapter 195, Laws of 1900, and supplements; and the assessments of tax placed upon corporations of other States, Territories or Countries licensed to transact business in the State of New Jersey, as provided by Chapter 221, Laws of 1904.

### RAILROADS AND CANALS.

For the year 1904, assessments have been levied against one hundred and twelve railroad corporations and one canal company, the particulars and details of which assessments are set forth in Schedule A of the appendix to this report.

Since the assessment of 1903 the Columbus, Kinkora and Springfield Railroad Company of the Pennsylvania Railroad system has been reorganized under the corporate title of "Kinkora and New Lisbon Railroad Company," and the property formerly assessed to the "Whippany River Railroad Company" is now included in the assessment levied against the "Morristown and Erie Railroad Company" (unclassified). The Easton and Amboy Railroad Company, Greenville and Hudson Railway Company, Lehigh Valley Terminal Railway Company, Middlesex Railway Company, Perth Amboy and Raritan Railway Company, and the Pittstown Branch Railway Company (Lehigh Valley Railroad System), having legally consolidated, are assessed for the year 1904 under the corporate title of the "Lehigh Valley Railroad Company of New Jersey."

#### TRACKAGE STATEMENT.

The total length of track constructed in New Jersey at the close of the year 1903 was :

	Miles.
First track, .....	2,314.083
Second track, .....	819.317
Third and fourth tracks, .....	231.705
Sidings, .....	1,723.240
<b>Total, .....</b>	<b>5,088.345</b>
 Of which is laid with steel rails, .....	 4,412.550
Of which is laid with iron rails, .....	675.795
<b>Total, .....</b>	<b>5,088.345</b>

The number of miles of canals and feeders in the State is 173.340.

The increase in the aggregate mileage of track over 1902, including all classes, is 64.353 miles.

	Miles.
Increase, steel rails, .....	76.329
Decrease, iron rails, .....	11.976
<b>Net increase, .....</b>	<b>64.353</b>

## FINANCIAL STATEMENT.

The capital stock and debt, as reported, are as follows:

Capital stock, .....	\$155,758,823 00
Funded debt, .....	185,372,239 00
Unfunded debt, .....	11,697,736 00
Total, .....	<u>\$352,828,798 00</u>

The gross earnings of all lines for the year ending December 31, 1903, were \$62,731,124.02.

## COMPARISON OF ASSESSMENTS. 1903 AND 1904.

	Aggregate Valuation.	Tax for State Uses.	Tax for Local Uses.	Total Tax.
1904 .....	\$231,655,525	\$1,158,277 65	\$436,843 49	\$1,595,121 14
1903 .....	<u>227,195,115</u>	<u>1,135,975 60</u>	<u>428,334 01</u>	<u>1,564,309 61</u>
Increase, ..	\$4,460,410	\$22,302 05	\$8,509 48	\$30,811 53

These figures represent respectively the assessments for the years 1904 and 1903 of "property used for railroad and canal purposes," and show an increase of \$4,460,410 in valuation, with a consequent increase of \$30,811.53 in the amount of tax imposed.

## CONCLUSION.

The taxation of railroad and canal property is unquestionably the most important and at the same time the most difficult work this Board is called upon to perform.

Under the law the taxes levied upon certain classes of railroad property are retained by the State, and upon other classes the taxes accrue to the local taxing districts.

As nearly every taxing district in the State has railroad property within its borders, it therefore follows that the assessments made by our Board come in direct comparison with the assessments made by the assessors in the local taxing districts.

The fact that but one municipality during the last year has complained of the assessments made by this Board leads us to believe that our assessments have been generally regarded as fair, equitable and just.

During the past year the terms of Mr. Stephen J. Meeker and Mr. Robert S. Green expired. Mr. Meeker was reappointed to succeed himself, and Mr. Eckard P. Budd, of Burlington county, was appointed to succeed Mr. Green.

The customary tabular statements pertaining to the assessment of railroad and canal property for the year 1904 will be found in the appendix to this report.

All of which is respectfully submitted.
